

Quality management in accordance with ISO/TS 16949 at HELLA

HELLA KgaG Hueck & Co. has a rich 100-year history in the development and manufacture of lighting technology and electronic products for the automotive industry. The Lighting and Electronics segments are highly driven by technology and innovation. Energy management and CO2 reduction, offer attractive opportunities for sustainable and responsible growth. As such, HELLA sought certifications in accordance with ISO 14001 ISO/TS 16949 and ISO 9001/KBA.

Guidelines, standards	<ul style="list-style-type: none"> ■ ISO 14001 ■ ISO 9001/KBA ■ ISO/TS 16949

Initial situation and requirements

The company has received ISO/TS 16949, ISO 9001/KBA and ISO 14001 certifications from TÜV Rheinland. In particular, ISO/TS 16949 and ISO 9001/KBA are a “must” since HELLA has considerable stake in the automotive arena. As such, ISO/TS 16949 certification plays a vital role in the tendering process.

HELLA is required to be certified to ISO 9001/KBA and to be aware of the relevant legal requirements as prescribed by the Federal Motor Vehicle Authority (FMVA). Recently the scope of certification has expanded to include ISO 14001, which HELLA is committed to doing.

Solutions, results

Since 2004, HELLA has been working together with TÜV Rheinland, and commends the excellent planning, service and cost-effectiveness.

Advantages for the customer:

- Systematic approach to managing the quality & environmental system
- Internationally accepted standard for automotive suppliers

Did you know?

The ISO/TS 16949 is the leading automotive standard worldwide. It brings together a number of quality standards for car manufacturers and original equipment manufacturers in a single certification process.

About TÜV Rheinland:

Founded more than 140 years ago, TÜV Rheinland is a global leader in independent inspection services, ensuring quality and safety for people, the environment, and technology in nearly all aspects of life. We inspect technical equipment, products and services, oversee projects and help to shape processes for companies around the world. Since 2006, we have been a member of the United Nations Global Compact to promote sustainability and combat corruption.

Always a good sign. The TÜV Rheinland test mark.

This mark stands for all the relevant customer information about products, services and systems that are tested, certified or inspected by TÜV Rheinland. This information is available online anytime, anywhere, and can be viewed in a matter of seconds at the click of a button. This means optimal transparency and top performance in terms of safety, quality and reliability – always. Global, systematic and eye-catching – communicated through a unique and multifunctional mark. The TÜV Rheinland test mark.
