

TÜV Rheinland Indonesia Training Services

Course Brochure
January - December 2020

Welcome to TÜV Rheinland's Training Services

TÜV Rheinland provides guidance and clear orientation for you to realize modern educational structures. With our learning programs, you are able to improve the employability, performance, productivity, quality and results of your employees and business.

While training normally serves a short term need of a company, consulting activity tends to serve a longer term objective in order to secure a sustainable development of an enterprise.

At TÜV Rheinland Training and Consulting, we are engaged in know-how transfer. Based on our close industry contacts and with trainers who know the industry from the within, we are teaching executives and managers practical skills for their daily work. TÜV Rheinland is your number one choice for all of your inspection, testing, certification and training needs. Our expertise is your advantage.

BENEFITS AT A GLANCE

For your organizations

- Efficiency and effectiveness in work
- Increased productivity / profitability
- Superior quality of products / services
- Increased customer satisfaction
- Increased health and safety
- Increased employee retention
- Internationally comparable training

standards

- Flexible and responsive program design

For your organizations

- Develop new skills in the performance of responsibilities
- Improving communication in personal and professional life
- Confidence in their abilities
- Confidence in the organization to which they belong

TRAINING BY TÜV RHEINLAND

Introduction Training

Basic introduction for beginners in management system implementation to grasp the concepts behind the system and understand the requirements.

Implementation Training

Now that you know the basics, it's time to start implementing the system within your organisation. This course provides the tools to do this successfully

Internal Auditor Training

This course provides the guidance and tools needed to perform successful internal audits of the management system implemented.

Lead Auditor Training

To become an auditor, one needs to harness certain skills and acquire more knowledge of the management system. The IRCA Registered Lead Auditor courses provide these skills and knowledge to future auditors.

CONSULTING BY TÜV RHEINLAND

We support our clients in optimizing processes and structure and innovative strategies as well as restructuring in securing both patent and supplemental financial aid while strictly adhering to maximum cost transparency and efficiency. TÜV Rheinland Consulting experts work together on an interdisciplinary basis. Globally linked and versed in current topics, our specialists incorporate the key factors of success affecting our customer sectors.

Our Profesional Training Programmes

ISO 9001:2015 QUALITY MANAGEMENT SYSTEM

ISO 9001:2015 is a generic standard that can be implemented to all kind of organization, either in manufacturing field or services industries. In order to assist organizations to have a full understanding of the ISO 9001:2015, it may be useful to have an insight on the clause of ISO 9001:2015 requirement, and the consideration given to benefits and impacts of implementing the quality management system.

ISO 14001:2015 ENVIRONMENTAL MANAGEMENT SYSTEM

ISO 14001:2015 is intended for use by an organization seeking to manage its environmental responsibilities in a systematic manner that contributes to the environmental pillar of sustainability. Consistent with the organization's environmental policy, the intended outcomes of an environmental management system.

ISO 45001:2018 HEALTH AND SAFETY MANAGEMENT SYSTEM

Safeguarding and maintaining health & safety in the workplace is an important prerequisite for motivated and productive working process, both for employers and employees in order to prevent work-related injury & ill health and to continually improve OHS performance. The ISO 45001 standard focuses on preventive employee protection and greater involvement from the management team.

IATF 16949:2016 AUTOMOTIVE MANAGEMENT SYSTEM CERTIFICATION

The IATF publish IATF 16949:2016 in October 2016 and it replaces the current ISO/TS 16949. This new standard has new requirements that should be considered. As per 1 October 2017, all audit to automotive QMS shall be based on IATF 16949:2016.

ISO 50001:2018 ENERGY MANAGEMENT SYSTEM

The international ISO 50001:2018 standard established the requirements and guidance for organizations to successfully develop, implement, maintain and continually improve an energy management system (EnMS).

PROCESS SAFETY MANAGEMENT TRAINING

Process safety management is an analytical tool focused on preventing releases of any substance defined as a „highly hazardous chemicals“ by the EPA or OSHA. Process Safety Management (PSM) refers to a set of inter-related approaches to manage hazards associated with the process industries and is intended to reduce the frequency and severity of incidents resulting from releases of chemicals and other energy sources (US OSHA 1993). These standards are composed of organizational and operational procedures, design guidance, audit programs, and a host of other methods.

LABORATORY TRAINING AND CONSULTING BASED ON ISO 17025:2017
