

 **5 Minute Guide**

Trust, Transparency, and Responsibility.

With certification solutions for your food sector!

Global trends, the demands of stakeholders, and different market trends constantly present new challenges to companies in the food sector and their supply chains. We are here to provide you with support in meeting your customers' rising demand for safely produced, manufactured and traded food and feed! We can help your company cope with the ever-changing situation in the food sector.

Certification as evidence of your trustworthiness.

... minimize risk in connection with food safety

... establish trust and transparency for all stakeholders including authorities

... enjoy a competitive advantage and a better and easier access to market

... help your clients keep promises on food safety and quality

... identify opportunities to increase profitability

... provide greater consistency in quality

... make your company future proof

ESTABLISH TRUST.

Certification in food logistics establishes trust, transparency and security. We support you to demonstrate your high standards of quality and product safety with storage, distribution and transportation.

WITH TÜV RHEINLAND.

We have established a worldwide network of highly renowned food certification experts. With our comprehensive portfolio and mainly in-house resources, we are a one-stop shop for all your certification requirements.

YOUR PARTNER.

We have more than two decades of experience in the food sector and world-class experts who understand your industry. We are the right partner to lead you along the certification path!
