

# Training and certification of students for career preparation.

TÜV Rheinland Academy's partnership with universities in Romania is based on the provision of expertise to various faculties in addition to the regular curriculum.

## Data and facts

Client	Aurel Vlaicu University of Arad
Period	November 2017 – January 2018
Site	Arad
Services	Training and certification of students

## INITIAL SITUATION AND REQUIREMENTS

The cooperation between Romanian universities and TÜV Rheinland Academy is based on the increasing demands of the labor market: business and industry now demand much more than just academic skills. The students' need to expand their expertise is correspondingly great. The goal was to support students in entering the job market by giving them the opportunity to continue their education according to their needs and thus find a well-paid job more easily.

## SOLUTIONS, RESULTS

In the training sessions, TÜV Rheinland Academy worked closely with university representatives to ensure that their institutional requirements were met 100%. Based on this, eight training programs were developed and implemented for the Master's programs in the Faculty of Food Engineering, Tourism and Environmental Protection. All courses were concluded with the certification of the participants. TÜV Rheinland Academy was commissioned because of the high quality of the courses on offer, taking into account local regulations and requirements, and because of the trainers, who have extensive pedagogical experience and sound technical expertise.

### YOUR BENEFITS

TÜV Rheinland Academy seminars provide up-to-date specialist knowledge around the world and can be adapted flexibly in terms of content and scope. Our lecturers come from real-life practice. They are familiar with the current challenges and solutions in various industries and are specialized in imparting their expertise in an exciting way. In this way, we reliably take key personnel to the next level and secure a decisive competitive advantage for companies. It is also possible to obtain certification according to international standards following the respective training.

### DID YOU KNOW...?

Germany is Romania's number one trading partner for both imports and exports. In 2017, Romania's economy recorded the second-fastest growth within the EU, making it one of the fastest-growing countries in the world. In June 2018, the unemployment rate was 4.5%, below the EU average. Most employees currently work in the service sector.

## ABOUT TÜV RHEINLAND ACADEMY

With branches all over the world, TÜV Rheinland Academy is the international institution for technical and professional expertise in all important subject areas. We convey well-founded knowledge from real-life practice. Our innovative further training solutions range from individual training courses to customized personnel development concepts. In this way, we strengthen the technical skills of participants all over the world.
