Partial revision of “About Interpretation of Ministerial Ordinance for Establishing Technical Requirements for Electrical Appliances and Materials”

It was announced by METI that Appendix 10 and Appnedix 12 of “About Interpretation of Ministerial Ordinance for Establishing Technical Requirements for Electrical Appliances and Materials” were revised on August 31, 2022.

The effective date of this revision is August 31, 2022. However, for three years after the revision, it is possible to follow the previous interpretation.

The outline of this revision is as follows.

Appendix 10:

Appendix 10 stipulates the permissible values of radio noise strength from electrical appliances, but there are no requirements for radiated emission from lighting devices. Since there is a risk that measures against communication interference caused by radio noise from lighting devices are not taken sufficiently, the international technical trends related to radio noise strength have been reflected in this revision.
