	Diversified portfolio with a broad range of expertise		

# Secondary Vocational Schools & Colleges

**We prepare our students for a career as a certified specialist or manager as well as for further university studies.**

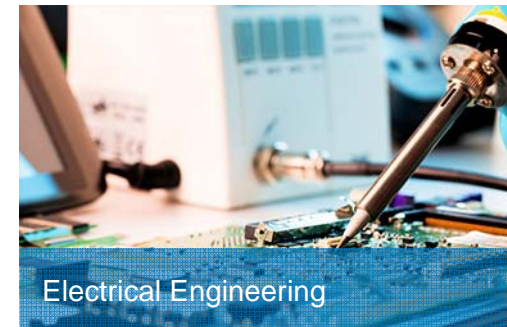

Our diplomas and certificates provide our students a good basis for a successful professional career in Germany and across national borders.

## **Benefits at a glance**

- State-of-the-art instruction based on latest developments in modern business education
- Professional experience
- Shared learning experiences in a positive, supportive setting
- Project work in multicultural teams
- Internships as a springboard into the job

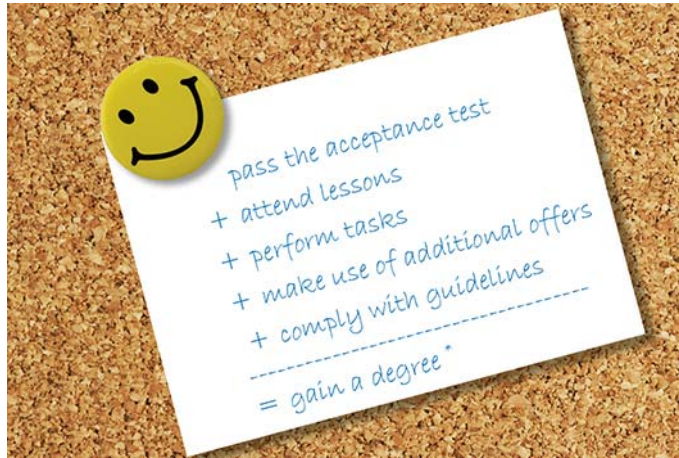

# Secondary Vocational Schools & Colleges

We train a new generation of well qualified and highly motivated employees.

Our full-time vocational schooling typically lasts two years. For students wishing to complete their technical college certificate at the same time, the program lasts three years. The same applies for most health professions. A final state examination concludes the training program.

# Secondary Vocational Schools & Colleges

\* According to a study, more than 90 percent of our students successfully pass the final exam.

## Entrepreneurial. International. Personal. Successful.

At our TÜV Rheinland schools, we train skilled workers, qualified specialists and young junior managers. The vocational training lasts 2 - 3 years. Our students obtain a recognized vocational degree. Qualification to enter the university of applied sciences is additionally available in some areas.

We prepare our students in a wide range of popular and growing industries:

### Creative Professions

- Design & Media
- Cosmetology

### Health & Social Services

- Geriatric Care
- Physical Therapy
- Ergotherapy
- Emergency Service

### Computer Science & Technology

- Biotechnology
- Electrical Engineering
- Information Technology
- Chemical Engineering

# University Campus.
