Testing of cosmetic products.

Shower gel, shampoo, toothpaste and perfume are essential parts of our daily life. They contribute to our well-being. Consumers trust in the safety of these products. For this reason, health and consumer protection is essential, both for manufacturers and for importers. Document the quality and safety of your products with our comprehensive **cosmetics testing!**

FOR YOU – WE TEST.

With our expert knowledge and a particularly global network, we contribute that your product meets the high quality requirements of the market. We will carry out tests in accordance with the applicable standards, guidelines, laws and quality requirements in each case and we will offer you the following tests and test programmes among others:

- Checking the declaration and the labelling as well as evaluation of the ingredients list
- Safety assessment
- Notification of the products at the CPNP database
- Checking the documentation to be kept ready for official monitoring by authorities
- Chemical analyses of the cosmetic product, e. g. for active ingredients, contaminants, preservatives and fragrances
- Testing of the packaging material, e. g. for heavy metals, PAHs and phthalates, compliance with the requirements of Regulation (EC/No 1935/2004)
- Microbiological tests
- Storage stability test
- Challenge test
- Verification and confirmation of compliance with the Good Manufacturing Practice (GMP)

FOR YOU – WE MONITOR.

TÜV Rheinland test marks document consistent quality. To ensure this, we carry out an initial inspection as well as repeated checks of your production sites.

FOR YOU – WE CERTIFY.

If a test is successful, a certificate and the right to use a test mark can be awarded.
