

Simplified Issuance of SABER COC for Importing Used Vehicles into Saudi Arabia

TÜV Rheinland is now approved by SASO as a trusted Inspection Body

As an approved Inspection Body by the Saudi Standards, Metrology and Quality Organization (SASO), we are now responsible for conducting thorough inspections and issuing the SABER COC Certificates of Conformity for Used Vehicles imported into Saudi Arabia.

COCs are mandatory for importing into Saudi Arabia from June 30th, 2024.

Importers of the Used Vehicles into Saudi Arabia, can now place a request for the COCs on the SABER platform and choose TÜV Rheinland as the Inspection Body. We make the entire procedure seamless right from processing the request, and assessing the conformity of the used vehicle

to issuing the COC and enabling a smooth clearance at the Saudi Customs. We ensure the Used Vehicle is compliant with SASO Regulations and Standards through a detailed inspection of the vehicle in the exporting country and authenticate the quality of the vehicle.

The Online Used Vehicle Services and electronic COCs on the SABER platform simplify importing used cars into Saudi Arabia.

About TÜV Rheinland

For more than 150 years of quality and safety, TÜV Rheinland's mission has been to make

technology safe for people and the environment. From the steam engine to digitalization, what started as a regional association for the monitoring of steam boilers has evolved into a global testing service provider.

Today, TÜV Rheinland ensures safety and quality in almost all areas of business and life. This shared commitment unites more than 20,000 employees. TÜV Rheinland's experts test technical systems and products around the globe, support innovations in technology and business, train people in numerous professions, and certify management systems according to international standards. By ensuring safety and sustainability, TÜV Rheinland is also shaping the future. Since 2006, TÜV Rheinland has therefore been a member of the United Nations Global Compact for more sustainability and against corruption.

About TÜV Rheinland Government Inspections and International Trade Services

TÜV Rheinland is a trusted Conformity Assessment Body (CAB) for many governments and authorities around the world, assuring that goods fulfill national and international standards. TÜV Rheinland has over 150 years of expertise and a global network of professionals and laboratories. As a conformity assessment organization, our goal is to help businesses, exporters, importers, and manufacturers gain speedy access to the country of destination and a seamless customs clearance process.

International trade is a mainstay for most companies in today's economy. This involves in many occasions long distance agreements. Those may raise possible

Rooted in Germany – and at home all over the world: The internationalization of TÜV Rheinland began in 1970. Today, we have operations in some 60 countries on all continents.

group-network laboratories all over the world work on our clients' behalf to inspect the safety, quality, functionality and ergonomics of products from a very wide range of sectors.

The testing of products, for example: 80 percent of the business is done outside Germany because the tests logically take place where products are manufactured. Worldwide, TÜV Rheinland has roughly 780 of what are known as accreditations—an official recognition permitting the performance of tests—from national authorities.

1872

was the birth year for the "Verein zur Überwachung der Dampfkessel in den Kreisen Elberfeld und Barmen" ("Association for Monitoring Steam Boilers in the Districts of Elberfeld and Barmen") from which TÜV Rheinland would later emerge.

FOSFA INTERNATIONAL

uncertainties when business agreements are being concluded. Therefore, traders (buyers, sellers, manufacturers) often demand for a third party inspection in terms of quantity, quality, condition or price to mitigate possible risks or non-fulfillment of contractual agreements.

Our Customized Commercial Inspections services can be conducted in connection with a Letter of Credit (LOC) or be based on industry / bespoke requirements to bring about the certainty, a buyer or seller may need.
