CONSTRUCTION MATERIALS						
Steel sheets and strips for pressure purposes – Technical delivery conditions Part 2: Unalloyed and weakly alloyed steels with specified properties at room and high temperatures	7208101000	7208109000	7211909000	7212102110	722511	722519
	7208251000	7208259000	7212102900	7212109110	7225401000	7225402000
	7208261000	7208269000	7212109190	7212109900	7225500000	7225911000
	7208271000	7208279000	7212200020	7212200097	7225921000	7225301000
	7208361000	7208369000	7212302100	7212302900	7225302200	7225303100
	7208371000	7208379030	7212309300	7212309400	7225303200	7225309100
	7208379080	7208381000	7212309900	7212403100	7225309200	7226200010
	7208389030	7208389080	7212403990	7212409100	7226200051	7226200052
	7208391000	7208399030	7212409911	7212409919	7226200061	7226200090
	7208399080	7208401000	7212409921	7212409929	7208271000	7208279000
	7208409000	7208510000	7212409931	7212409939	7208399030	7208399080
	7208521000	7208529000	7212409980	7212409990	7208540099	7208902000
	7208530000	7208540010	7212503000	7212504000	7208909000	7209150000
	7208540099	7208902000	7212505900	7212506800	7209250000	7211230020
	7208909000	7209150000	7212509000	7212602000	7211902000	7212200020
	7209160010	7209160091	7212603000	7212609110	7212200097	7212503000
	7209160099	7209170010	7212609900	7219110000	7212506800	7212602000
	7209170090	7209180010	7219120000	7219130000	7219900000	7225110000
	7209180090	7211230020	7219210000	7219220000	7225190000	7225301000
	7211230030	7211230051	7219230000	7219310000	7225990000	7226200090
	7211230090	7211902000	7219320000	7219900000	7226990000	7226910000
	722692	7225302100				
	Steel sheets and strips for pressure purposes – Technical delivery conditions Part 3: Nickel alloy steels with specified properties at low temperatures.	7225401000	7225402000	7225303100	7225303200	7226110010
7225409000		7225911000	7225303900	7225309100	7226110031	7226110039
7225921000		7225990000	7225309200	7225309200	7226110040	7226110050
7225301100		7225301200	7225401000	7225402000	7226110090	7225301000
7225301900		7225302100	7225409000	72262000	7225500000	7226110020
7225302200		7225302900	72269100	722690	7226110090	7226200010
7220200080		7225309900	7226920000	7226990000	7226920000	

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert
2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

 **TÜVRheinland®**
Precisely Right.

PRODUCT	NOMENCLATURE CODE (SH)					
CONSTRUCTION MATERIALS						
Reinforcements for reinforced concrete Welded trellis and components	731420	7314310000	7314420000	7314490090	7314200000	7314390000
	73143900	7314410090				
Cold rolled carbon steel sheets, continuously coated with commercial grade electrolytic tin and for stamping	7210112090	7210119000				
Sheets of bitumen shingles with cellulose felt reinforcement known as “cellulose bitumen shingles” – Specifications	6807900000					
Hot rolled flat products in high yield strength steels for cold forming – Part 2: Technical delivery conditions for steels obtained by thermomechanical rolling	7210112090	7210119000				
Hot rolled flat products in high yield strength steels for cold forming – Part 3: Technical conditions for delivery of steels in normalized or normalized rolling condition.	7210112090	7210119000				
Cold rolled flat products with high yield strength for cold forming – Technical delivery conditions	7210112090	7210119000				
Cold rolled flat products, not coated or coated with zinc or zinc-nickel electrolytically in low carbon steel and high yield strength steel for cold forming – Tolerances on dimensions and Concerning the formal presentation	7210112090	7210119000				
Cold rolled, low carbon steel flat products for cold forming – Technical delivery conditions	7210112090	7210119000				
Hot-rolled products from structural steels – Part 1: General technical delivery conditions	7210410000	7210490000				
Hot rolled structural steels products – Part 2: Technical delivery conditions for non-alloy structural steels	7210410000	7210490000				
Hot rolled structural steels products – Part 3: Technical delivery conditions for weldable fine grain structural steels in the normalized state normalized rolling	7210410000	7210490000				
Hot rolled structural steels products – Part 4: Technical delivery conditions for thermomechanically rolled fine grain weldable structural steels	7210410000	7210490000				
Hot rolled products from structural steels – Part 5: Technical delivery conditions for structural steels with improved resistance to atmospheric corrosion	7210410000	7210490000				

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert
2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

PRODUCT		NOMENCLATURE CODE (SH)				
CONSTRUCTION MATERIALS						
Hot rolled structural steels products – Part 6: Technical delivery conditions for flat products of steels with high yield strength in the quenched and tempered condition	7210410000	7210490000				
Continuous hot dipped low carbon flat steel products – Technical delivery conditions	7210410000	7210490000				
Concrete fibers – Steel fibers – Definitions, specifications and conformity	7325999091	7325999099	7326199081	7326199090	7326209090	7326909990
Wood or metal windows – Specifications	4418110010	4418190010	7308300000	7610100010	4418110090	4418190090
	4418110090	4418190090	4418110010	4418190010		
Glass in building – Basic products: Soda lime silicate glass – Part 1: Definitions and general physical and mechanical properties	7003	7004	7004208091	7004208099	7005292020	7005299000
	7005	7006	7004901000	7004908091	7005302020	7005302080
	7007	7008	7004908099	7005102010	7005308091	7005308099
	7016	7003128010	7005102080	7005109000	7006009200	7016109000
	7003128020	7003128030	7005213010	7005213080	7016909000	7005292080
	7003198000	7003200000	7003300000	7005219000		
Glass in construction – Basic products: Sodium-calcium silicate glass – Part 3: Polished reinforced glass	7003	7004	7004901000	7004908091	7004208091	7004208099
	7005	7006	7004908099	7005102010	7005292020	7005299000
	7007	7008	7005102080	7005109000	7005302020	7005302080
	7016	7003128010	7005213010	7005213080	7005308091	7005308099
	7003128020	7003128030	7005219000	7005292080	7006009200	7016109000
	7003198000	7003200000	7016909000	7003300000		
Glass in construction – Commodities: Soda-lime silicate glass – Part 6: Wire patterned glass	7003	7004	7004901000	7004908091	7004208091	7004208099
	7005	7006	7004908099	7005102010	7005292020	7005299000
	7007	7008	7005102080	7005109000	7005302020	7005302080
	7016	7003128010	7005213010	7005213080	7005308091	7005308099
	7003128020	7003128030	7005219000	7005292080	7006009200	7016109000
	7003198000	7003200000			7016909000	
Glass in construction – Basic products: Sodium-calcium silicate glass – Part 7: Reinforced or unreinforced profiled glass	7003	7004	7004901000	7004908091	7004208091	7004208099
	7005	7006	7004908099	7005102010	7005292020	7005299000
	7007	7008	7005102080	7005109000	7005302020	7005302080
	7016	7003128010	7005213010	7005213080	7005308091	7005308099
	7003128020	7003128030	7005219000	7005292080	7006009200	7016109000
	7003198000	7003200000	7003300000	7016909000		
Tempered glass for building glazing	7003	7004	7004901000	7004908091	7004208091	7004208099
	7005	7006	7004908099	7005102010	7005292020	7005299000
	7007	7008	7005102080	7005109000	7005302020	7005302080
	7016	7003128010	7005213010	7005213080	7005308091	7005308099
	7003128020	7003128030	7005219000	7005292080	7006009200	7016109000
	7003198000	7003200000	7003300000	7016909000		

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert
2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

PRODUCT		NOMENCLATURE CODE (SH)				
CONSTRUCTION MATERIALS						
Glass in construction – Safety glazing: Testing and classification of resistance to manual attack	700320	7003300000	7004901000	7004908091	7004208091	7004208099
	700719	7007290000	7004908099	7005102010	7005292020	7005299000
	7008000000	7016	7005102080	7005109000	7005302020	7005302080
	7003128010	7003128020	7005213010	7005213080	7005308091	7005308099
	7003128030	7003198000	7005219000	7005292080	7006009200	7016109000
	7003200000	7003300000	7016909000			
Glass in construction – Glass assemblies comprising transparent or translucent glass, fire resistant, for use in buildings	70031220	(exc.70031280)	7003198000	7003200000	7007290000	7008000000
	70031280	70031980	7003300000	70042080	7004208091	7004908091
	7016	700719	70049080	70060092	7004908099	7006009200
	7016109000	7016909000				
Flat armored glass for building glazing	7003	7004	7004901000	7004908091	7005292020	7005299000
	7005	7006	7004908099	7005102010	7005302020	7005302080
	7007	7008	7005102080	7005109000	7005308091	7005308099
	7016	7003128010	7005213010	7005213080	7006009200	7016109000
	7003128020	7003128030	7005219000	7005292080	7016909000	7004208099
	7003198000	7003200000	7003300000	7004208091		
Glass in building – Laminated glass and laminated safety glass – Part 2: Laminated safety glass	7003	7004	7003300000	7004901000	7004208099	7005292020
	7005	7006	7004908091	7004908099	7005299000	7005302020
	7007	7008	7005102010	7005102080	7005302080	7005308091
	7016	7003128010	7005109000	7005213010	7005308099	7006009200
	7003128020	7003128030	7005213080	7005219000	7016109000	7016909000
	7003198000	7003200000	7005292080	7004208091		
Glass in building – Laminated glass and laminated safety glass – Part 3: Laminated glass	7003	7004	7004901000	7004908091	7005292020	7005302080
	7005	7006	7004908099	7005102010	7005308091	7005308099
	7007	7008	7005102080	7005109000	7006009200	7016109000
	7016	7003128010	7005213010	7005213080	7016909000	7004208099
	7003128020	7003128030	7005219000	7005292080	7003300000	7004208091
	7003198000	7003200000	7005292020	7005299000		
Glass in construction – Special basic products: Vitroceramics	7003	7004	7004208091	7004208099	7005292020	7005302080
	7005	7006	7004901000	7004908091	7005308091	7005308099
	7007	7008	7004908099	7005102010	7006009200	7016109000
	7016	7003128010	7005102080	7005109000	7016909000	7005299000
	7003128020	7003128030	7005213010	7005213080	7003300000	7005292020
	7003198000	7003200000	7005219000	7005292080		

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert
2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

PRODUCT		NOMENCLATURE CODE (SH)				
RUBBER AND PLASTIC PRODUCTS						
Rubber hoses for suction and discharge of water – Specifications	400931	400932				
Rubber gaskets; Specification of materials for gaskets for pipe joints used in the water and drainage industry – Part 1: Vulcanized rubber						
Hydraulic and pneumatic transmission O-rings – Part 1: Internal diameters, sections, tolerances and dimensional identification codes	4016930000					
Rubber and plastic hoses and hoses test and burst pressure ratios at maximum working pressure	3917	4009				
Thermoplastic covering films for use in agriculture and horticulture	3920100025	3920100093				
Plastics; Plastic films for agriculture and horticulture – Conditions for implementation and use	3920	3920438010	3920498080	3920510000	3920790000	3920930000
	3920438080	3920498010	3920590000	3920719000	3920999000	
Rubber bearings – Specifications	401699					
Water stop strips; Rubber products – Specifications	4016999800	4017001010				
Rubber and plastic pipes, tubes and hoses for use with propane, butane and their phased mixtures steam – Part 1: Pipes and tubes	4009110000	400931	3917			
Multilayer piping systems for hot and cold water installations inside buildings – Part 2: Pipes	391721	391722	391729	391731	391733	391739
	391723	391732				
Plastic piping systems for water supply, for underground and overhead sewerage and sewerage systems with pressure unplasticized Poly (vinyl chloride) (PVCU) – Part 3: Fittings						
Plastic piping systems for hot and cold water installations. Poly (vinyl chloride) chlorine (PVC C) – Part 3 Fittings	3917400000					
Plastic piping systems for hot and cold water installations - Polybutene (PB) – Part 3: fittings	3917400000					
Plastics – Unplasticized Polyvinyl Chloride (PVCU) pipes for underground irrigation networks – Specifications	3917219100	3917219900				
Plastics piping systems for hot and cold water installations – Crosslinked Polyethylene (P) – Part 1: General	3917219100	3917219900				

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert

2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

PRODUCT	NOMENCLATURE CODE (SH)					
RUBBER AND PLASTIC PRODUCTS						
Buried polyethylene (PE) pipes for gas fuel distribution networks; Metric series – Specifications	391721	391731	391732	391739		
Plastics piping systems for water supply and for sewerage and drainage manifolds with pressure; Polyethylene (PE) – Fittings						
Plastics piping systems for water supply and for drainage and sewerage manifolds with pressure; Polyethylene (PE) – Part 4: Taps for supply systems of water						
Plastic piping systems for installations hot and cold water pipes Polypropylene (PP) – Part 3: Fittings	3917400000	391722	391731	391732	3917330000	391739
Plastics piping systems for hot and cold water installations; Cross-linked Polyethylene (PE-X) – Part 3: Couplings						

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert
2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

PRODUCT		NOMENCLATURE CODE (SH)			
HOUSEHOLD APPLIANCES AND OTHER ELECTRIC PRODUCTS					
Household electrical heating appliances; Storage space heaters – Safety rules	8516	8516900000			
Safety of household and similar electrical appliances; Requirements General	8516	8516900000			
Safety of household and similar appliances; Special rules for electric irons	8516	(except 851690)			
Safety of household and similar electrical appliances; Special requirements for toasters, grills, casseroles and similar appliances	8516	8516900000			
Safety of household and similar electrical appliances; Particular requirements for fryers, frying pans and similar appliances	8516600000	8516790000			
Safety of household and similar electrical appliances; Special rules for kitchen machines	8516	8516900000			
Safety of household and similar electrical appliances; Particular rules for liquid heating appliances	8516	8516900000			
Safety of household and similar electrical appliances; Special rules for instantaneous water heaters	8516101000				
Safety of household and similar electrical appliances; Particular requirements for vacuum cleaners and vacuum cleaning appliances of water	85081100				
Safety of household and similar electrical appliances; Special rules for centrifugal dryers	8421				
Safety of household and similar appliances; Special rules for dishwashers	842211	842219	8422110000	8422190000	
Safety of household and similar appliances; Particular rules for electric fryers for collective use	841981	8419817000			
Safety of household and similar electrical appliances; Particular rules for electric cookers, ovens, hobs and cooktops for collective use	841981	8419817000			
Safety of household and similar electrical appliances; Particular rules for electric griddles for collective use	841981	8419817000			
Safety of household and similar electrical appliances; Special rules for electric frying pans for collective use	8516600000	8516790000			
Safety of household and similar appliances; Special rules for electric grills and toasters for collective use	841981	8419817000			
Safety of household and similar appliances – Particular rules for storage heaters	841981	8419817000

PRODUCT		NOMENCLATURE CODE (SH)			
HOUSEHOLD APPLIANCES AND OTHER ELECTRIC PRODUCTS					
Safety of household and similar electrical appliances — Particular requirements for electric kitchen machines for collective use		841981	8419817000		
Low voltage fuses — Part 1: General requirements		8536109091			
Insulated conductors and cables for installations — Classification tests of conductors and cables from the point of view of their fire behavior					
Insulated conductors and cables for installations; Rigid cross-linked polyethylene cables under polyvinyl chloride protective sheath – Series U-1000 R2V and U-1000 AR2V		8544499010	8544499020	8544499030	8544499040
Conductors and cables for installations – Conductors for internal wiring insulated with polyvinyl chloride		8544499090			
Conductors and cables for installations – Flexible, flat, insulated cables and polyvinyl chloride sheaths for string lights Class II		8544421011	8544421019		
Conductors and cables for installations – Rigid cables insulated with cross-linked polyethylene under polychloroprene sheath		8544421021	8544421029	8544491011	
Conductors and cables for installations; Conductors and Cables with a metallic coating – Regulations		8544491019	8544491021	8544491029	
Conductors and wires used in electrical construction; Enameled copper wires, of circular section, with high mechanical properties		8544601000			
Conductors and cables for installations – Rigid cables 0.6 kV, halogen-free with improved fire behavior, category C1, with cross-linked synthetic insulation and with extruded synthetic protective sheath		8544429021	8544429091	8544499020	8544499030 8544429090
Conductors and cables insulated with rated rubber at most equal to 450/750 V					
Rubber-insulated conductors and cables with a voltage of 450/750 V or less – General requirements		8544602000			
Conductors and cables insulated with rubber, of rated voltage at most equal to 450/750 V – Insulated conductors with heat resistant silicone		8544119000	8544499059	8544491059	8544491069
Rubber-insulated conductors and cables, with rated voltage at most equal to 450/750 V – Flexible cables		8544499069	8544606900	8544607900	
Rubber-insulated conductors and cables, with rated voltage at most equal to 450/750 V – Arc welding cables		8544499040			

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert
2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

PRODUCT		NOMENCLATURE CODE (SH)			
HOUSEHOLD APPLIANCES AND OTHER ELECTRIC PRODUCTS					
Conductors and cables insulated with rubber, of rated voltage at most equal to 450/750 V – Conductors with increased heat resistance, for a core temperature of 110° C, for internal wiring		8544499040			
Rubber-insulated conductors and cables, with rated voltage at most equal to 450/750 V – Cables in polychloroprene sheath or equivalent synthetic elastomer for light garlands		8544499040			
Conductors and cables insulated with rubber, of rated voltage at most equal to 450/750 V – Single conductor cables without sheath for fixed installation, having an emission of smoke and corrosive gases		8544499040			
Rubber-insulated conductors and cables, with rated voltage at most equal to 450/750 V – Flexible cables with EPR insulation and polyurethane sheath		8544499040			
Rubber-insulated conductors and cables, rated voltage at most equal to 450/750 V – Flexible cables with EVA insulation		8544499040			
Rubber-insulated conductors and cables with a voltage of 450/750 V or less – Flexible cables with heat-resistant EPR insulation		8544499040			
Conductors and cables insulated with rubber, of rated voltage at most equal to 450/750 V – Flexible single-conductor and multi-conductor cables, sheathed and cross-linked polymeric insulation, with low emission of fumes and corrosive gases		8544499040			
Rubber insulated cables and conductors, rated voltage at most equal to 450/750 V – Cables for applications requiring flexibility high		8544499040			
Insulated conductors and cables with thermoplastic materials of rated voltage at most equal to 450/750 V – General requirements		8544499040			
Polyvinyl chloride insulated conductors and cables, with a rated voltage not higher than 450/750 V – Flexible cables		8544499040			
Polyvinyl chloride insulated conductors and cables, with a rated voltage not higher than 450/750 V – Conductors for fixed installations		8544499040			
Polyvinyl chloride insulated conductors and cables, with a rated voltage not higher than 450/750 V – Test methods		8544499040			
Circuit separation transformers and safety transformers – Regulations		850421	850431	850432	850433
Switches for household and similar fixed electrical installation – General requirements		853650			

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert
2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

PRODUCT		NOMENCLATURE CODE (SH)				
HOUSEHOLD APPLIANCES AND OTHER ELECTRIC PRODUCTS						
Equipment for domestic and similar installations Switches and switches with nominal current greater than 10 A – Switches and switches with more than two poles; Switches and switches for panels	853650					
Equipment for laying pipes, conduits – General standards	8547900090					
Bayonet sockets	8536611000					
Edison screw lampholders; (REV)	8536611000					
Automatic residual current switches with built-in overcurrent protection for domestic and similar installations (DD) – General rules	853650					
Sockets for household and similar uses – 6 A 250 V 16 A 250 V systems	853669					
Low-voltage fuses – Additional rules for fuses intended for use by authorized persons (fuses for essentially industrial uses) – Sections I to VI: examples of fuses vvnormalized	8536101900					
Equipment for household and similar installations – Power sockets and 20 A and 32 A nominal current tenders; Regulations	8536691000	8544421011	8544421029	8544421090	8544429029	8544429090
	8544421019	8544421021	8544429010	8544429021	8544421090	
Conduit systems for cable management – Part 1: General requirements	3914	730300	7306699100	7306699900	7304419000	7304492000

	730539	730590	7304313000	7304319000	7604210000	7304419000
	730630	730640	7304392000	7304393000	7304492000	7304399000
	730650	7306691000	7304512000	7304513000	7304412000	7304399000
	7306699100	7304493000	7306611000	7306619000	7304499000	
Household electrical heating appliances – Fixed non-instantaneous water heater; General safety rules	8516101000					
Liquid dielectric transformers: With a power not exceeding 650 kVA	8504211000	8504219200	8504219800			
Of a power exceeding 650 kVA but not exceeding 10,000 kVA	850422					
Liquid dielectric transformers: Of a power exceeding 10,000 kVA	850423	8504239000				
Other transformers: Of a power not exceeding 1 kVA	8504311000	8504319100	8504319500	8504319700		
Other transformers: With a power exceeding 1 kVA but not exceeding 16 kVA	8504321000	8504329100	8504329700			
Other transformers: With a power exceeding 16 kVA but not exceeding 500 kVA	8504331000	8504338000				
Full-state static converters in the form of elements CKD	8504401000					
Static converters known as “battery chargers”, with capacity greater than or equal to 6 volts and less than 144 volts	8504409910					
Other static converters	8504409980					
Surgical projectors, even modular, fitted with devices eliminating cast shadows and whose so-called daylight is a cold light	9405490011					
Projectors for daylight reproduction of 3200 kelvin degree to 5600 kelvin degree	9405490012					
Other projectors	9405490019					

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert

2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

PRODUCT	NOMENCLATURE CODE (SH)	
HOUSEHOLD APPLIANCES AND OTHER ELECTRIC PRODUCTS		
Electrically operated clothes driers, of a capacity unit expressed in weight of dry linen greater than 6 kg	8421120030	
Other clothes spinners	8421120090	
Dishwashing machines household type: Operating Electric	8422110000	
Other dishwashing machines household type	8422110000	
Other electrically operated dishwashers	8422190000	
Other dishwashing machines	8422190000	
Washing machines, even with drying device fully automatic	8516101000	8450119000
Other machines, with incorporated centrifugal drier of a unit capacity expressed in weight of dry laundry not exceeding 6 kg: electrically operated	8450121000	
Other machines, with built-in centrifugal drier with a unit capacity expressed in weight of dry laundry not exceeding not 6 kg	8450121000	
Other machines, with built-in centrifugal wringer	8450129000	
Washing machines, whether or not with drying device fully automatic electrically operated	8450191000	
Other washing machines, whether or not with fully automatic drying	8450191000	8450199000
Machines with a unit capacity pressed in weight of dry laundry exceeding 10 kg	8450200000	
Chest-type freezers and freezers, with a capacity not exceeding 800 l weighing less than 500 kg: domestic use with a capacity greater than 400 liters	8418300020	
Chest-type freezers and freezers, with a capacity not exceeding 800 l weighing less than 500 kg: domestic use with a capacity less than or equal to 400 liters	8418300020	

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert
2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

PRODUCT	NOMENCLATURE CODE (SH)					
HOUSEHOLD APPLIANCES AND OTHER ELECTRIC PRODUCTS						
Chest-type freezers and freezers, with a capacity not exceeding 800 l of a weight equal to or greater than 500 kg	8418300090					
Cabinet-type freezers and freezers, with a capacity not exceeding 900 l weighing less than 500 kg at domestic use with a capacity greater than 400 liters	8418400000					
Cabinet-type freezers and freezers, with a capacity not exceeding 900 l weighing less than 500 kg at domestic use with a capacity less than or equal to 400 liters	8418400000					
Other cabinet-type freezers and freezers, of a capacity not exceeding 900 l weighing less than 500 kg for domestic use	8418400000					
Cabinet-type freezers and freezers, with a capacity not exceeding 900 l of weight equal to or greater than 500 kg	8418400000					
Display cases, positive or negative with curved glass in tempered safety glass, temperature controlled and group built-in or remote refrigeration	8418502000					
Other electrical conductors, for voltages not exceeding 1000 V: Equipped with connection pieces	8544429010	8544429029	8544429090	8544429021		
Other electrical conductors, for voltages not exceeding 1000V	8544499030	8544499059	8544499090			
Other electrical conductors, for voltages exceeding 1000 V	8544601000	8544606900	8544607100	8544607900	8544602000	8544606100
	8544603000	8544605000	8544609000	8544604000		
Table, floor, wall, ceiling, roof or ceiling fans of windows, with a built-in electric motor not exceeding 125 W	8414511100	8414511900	8414519000			
Fans	8414599000					
Hoods whose largest horizontal side does not exceed 120 cm	8414608000	8414700000	8414601000			

Note:

PRODUCT	NOMENCLATURE CODE (SH)	
HOUSEHOLD APPLIANCES AND OTHER ELECTRIC PRODUCTS		
Machines and apparatus for air conditioning comprising a motor-driven ventilator and devices specific to change the temperature, including those in which the degree humidity is not separately adjustable designed to be attached to a window, wall, ceiling or floor, forming a single body or of the “split-system” type (systems with separate) with compressor	8415100010	
Fan coil units	8415100098	
Unit heaters	8415100098	
Other machines and apparatus for air conditioning comprising a motor-driven fan and devices specific to change the temperature and humidity, including those in which the humidity is not adjustable separately designed to be mounted on a window, wall, ceiling or on the soil, forming a single body or of the “split-system” type (separate elements) without compressor	8415100098	
Fan coil units	8415830000	
Air handling units and groups	8415830000	
Air heaters	8415830000	
Other machines and apparatus for air conditioning comprising a motor-driven fan and suitable devices for modifying temperature and humidity, including those in which the humidity level is not separately adjustable Of the type used for the comfort of people in motor vehicles	8415830000	
Refrigerator and freezer-preservative combinations with separate exterior doors weighing less than 500 kg: for domestic use with a capacity greater than 400 liters	8418100012	
Combinations of refrigerators and freezer-freezers with separate external doors weighing less than 500 kg: for domestic use with a capacity less than or equal to 400 liters	8418100018	8418100040
Other fridge and freezer combinations – conservators fitted with external doors separated by a weight less than 500 kg; for domestic use	8418100040	
Combinations of fridges and freezers fitted with separate exterior doors of equal or greater weight at 500 kg	8418100080	

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert
2. This list serves as a first guide that whether your products are subject to CoC. While, the final confirmation is given based on the scope of compulsory norm, by a TÜV Rheinland expert.

PRODUCT	NOMENCLATURE CODE (SH)	
HOUSEHOLD APPLIANCES AND OTHER ELECTRIC PRODUCTS		
Household type refrigerators: Compression with a capacity greater than 400 liters	8418210010	
Other household type refrigerators: Compression of one capacity less than or equal to 400 liters	8418210099	
Other household type refrigerators: Compression of one capacity less than or equal to 400 liters	8418210099	
Other household type refrigerators: absorption, electric: with a capacity greater than 400 liters	8418291010	
Other household type refrigerators: absorption, electric: with a capacity less than or equal to 400 liters: with a capacity less than or equal to 75 liters	8418291091	
Other household type refrigerators: absorption, electric: with a capacity less than or equal to 400 liters	8418291099	
Other household-type refrigerators with a higher capacity to 400 liters	8418299010	
Other household-type refrigerators with a smaller capacity or equal to 400 liters	8418299090	
Grinders and mixers for food; juicer	8509400010	
Other food grinders and mixers	8509400090	
Floor polishers	8509800000	
Food waste disposers	8509800000	
Other electromechanical devices with electric motor incorporated, for domestic use, other than vacuum cleaners of heading No 8508	8509800000	
Electric water heaters and immersion heaters	8516101000	8516102000
Storage heaters	8516210000	
Other electrical apparatus for space heating, underfloor heating or for similar uses	8516290000	
Hair dryer	8516310000	
Other hairdressing devices	8516320000	
Hand drying devices	8516330000	

Note:

1. Some HS codes are not yet defined, for more information, please reach out to our TÜV Rheinland expert
