**Consumer Products Chemical Safety Requirement Proposed in China**

28 March 2017, the Chinese National Consumer Product Safety Standardization Technical Commission announced a public consultation on proposed chemical safety requirements with 103 restricted chemicals in consumer products including toys, apparels and so on.

Apart from the China national standard (GB and GB/T), the proposed requirements also came from certain international (mainly European) standards or regulations such as EN71-9, EN71-12, REACH regulation, Oeko-Tex-2017, etc.

### Proposed hazardous chemicals to be restricted in toy
