TÜV Rheinland is your reliable partner

Market Access Services of TÜV Rheinland provides support for developing new markets for your products by offering our expertise in countries approvals worldwide. Our experts are fully versed in various approval requirements and able to offer services from a single source for a quick access to international markets. Your benefits: faster time to market, more sales, and greater profits.

With our one-stop full service you can have your product tested, certified and shipped to the destination market by the most efficient way.

Commercial Products

We provide global machinery safety assessment, testing and certification of components, power tools and machinery products according to legal requirements, such as EU Machinery Directive, North America Safety, IECEE, ENEC and SEMI guidelines. Our services also cover many other regions: South America, Japan, Africa, Eurasia and Middle East.

Medical

TÜV Rheinland is recognised as a notified body in many countries around the world. In the EU, US, Canada, Japan, Brazil, etc., TÜV Rheinland is a well-known, respected technical and regulatory expert in the medical industry. With our Market Access Services your medical devices can be certified and registered for easy export.

Hardlines

As a full-service provider, we can offer you the right package of testing and certification services for furniture and kitchenware, tools and camping equipment and other products in terms of GS, LGA-tested, FSC and CE marks. You can go beyond to get access for other countries for your product; test it according to applicable standards and requirements of global market; certify it to drive your business forward; thus enhance your profitability and competitiveness. Also be prepared when target new market with our subscription and research services.

Softlines

Ensure products strictly comply to applicable standards and regulations for easy export with the help of global Market Access Services. As TÜV Rheinland is a certification body for automotive components in Brazil, North America, Europe and other regions, clients can get reliable support during consulting, testing and certification.

Electrical

Electrical and electronic products such as audio and video devices, household appliances and luminaires became essential to our lives. Being a notified body, TÜV Rheinland provides Market Access Services for various countries along with safety, energy efficiency, EMC and other national regulations. Regulatory research is possible for any country or client’s request.
