Profile

TÜV Rheinland Vietnam - All about us

www.tuv.com/vn
TÜV Rheinland is a leading international technical service provider with nearly 20,000 employees and 500 locations in 69 countries. Since the foundation in Germany in 1872, we have been developing solutions to ensure the safety, quality and sustainable development in the interaction between human, technology and environment.

Our extensive market activities are mainly concentrated on six business streams: industrial services, mobility, products, academy and life care, ICT and business solutions and systems.

- **2015**: Expanding laboratory capacity by textile and garment testing
- **2016**: Opening of the EMC laboratory in Hung Yen

Location

- **Hanoi**: Representative Office
- **Hung Yen**: Electromagnetic Capability Laboratory
- **Ho Chi Minh City**: Head Office

Services

With testing, inspecting, certifying, training and consulting services, we lend a hand in making products, systems, processes and people safer and more competitive.
With state-of-the-art equipment, our laboratory complex brings one-stop services for manufacturers and buyers around the world according to national and international standards. In addition, our experienced and qualified experts can support you from product development right through to production and market approval.

Testing for Electrical

Prevent interference and prepare for the global market
IT equipment (printers, fax, copy machines), household appliances, industrial and medical devices, radio devices (Wi-Fi, Bluetooth)

Our services
- Emission, immunity and radio testing
- Mass production compliance verification
- Full EMC conformity assessment
- CE marking, FCC, Industry Canada, VCCI

Testing for Mobility

From product idea to bestseller
- Complete vehicles: car, truck, motorbike, trailer
- Vehicle components: tires, seat belt, lamps, windshields

Our services
- Engineering and type approval
- Homologation
- Type testing
- Automotive dealer audit
- Market access service: e-mark/E-mark, SNI approvals, DOT, Inmetro

Testing for Softlines

Assistance for manufacturers, exporters and importers
Leather and footwear, textile and garment, toys, food containers, basic materials and consumable products

Our services
- Chemical tests: heavy metals, phthalates, azo dyes, organotin compounds, PCP, PAHs, formaldehyde
- Mechanical and physical tests: colorfastness, abrasion, dimensional stability, durability
- Market requirements: REACH, CPSIA, LFGB, RoHS

Testing for Hardlines

Exceed your expectations and meet your buyer’s requirements
Outdoor and indoor furniture, office products, building products, leisure and camping equipment, house and kitchenware, tools and mechanical products

Our services
- Quality and fitness for use tests: ergonomics, functionality, user-friendliness, surface quality, material properties
- Mechanical safety tests: stability, structural integrity, durability/lifecycle, designing for safety, operating and safety instructions
- Ecological and chemical product tests: contaminants, hygiene and microbiology
- User instructions test: checking, optimising

International Accreditation

- Our softlines and hardlines laboratories are accredited to have fulfilled all requirements of ISO 17025:2005 - Competence of Testing and Calibration Laboratories.
- The electromagnetic compatibility laboratory is operating under ISO 17025 accreditation*.

* ISO 17025 accreditation scheduled for June 2016
Inspecting

TÜV Rheinland brings you one-stop-shop solutions to cover all your needs along the supply chain. We make sure your products, vehicles, buildings, facilities and machines are safe, efficient and profitable.

Our experts are able to inspect your whole production process in accordance with international codes and standards.

- Factory Survey/Inspection (FS/FI)
- Initial Production Check (IPC)
- During Production Check (DUPRO)
- Random Sampling
- Loading Supervision (LS)
- Final Random Inspection/Pre-Shipment Inspection (FRI/PSI)

Training and Business Consulting

We help your company to meet the challenges of today’s working environment with softskill training, technical training and business consulting. By that you can ensure your company performs and competes to the highest standard.

Whether belong to the manufacturing or service industry, you certainly will find the program, which closes your specific knowledge gap.

- Accounting and Finance
- Business Administration
- Human Resource
- Leadership and Management
- Learning and Development
- Management Systems
- Quality and Productivity Improvement
- Sales and Marketing

Offering advice, development achieving targets, recognising new potentials and realising them jointly with your employees - this is also a part of our expertise. With competence and strategic know-how we will successfully deal with your tasks in the areas of management systems, organisation and business services.
Certifying

We are expert in providing globally recognised certification services for your management systems and products. With our services, you are able to get credible certification for better access to new markets and customers.

Certification of Systems

**Boost quality, safety and efficiency of your process**

We assess and certify management systems for companies and organizations according to international standards or individual performance criteria.

- Quality (ISO 9001, ISO 13485)
- Mobility (ISO/TS 16949)
- Energy and Environment (ISO 14001, ISO 50001, EMAS)
- Occupational Health and Safety (OHSAS 18001)
- Sustainability and Corporate Social Responsibility (BSCI, SA8000, FSC®)
- Information Technology (ISO 20000, ISO 27001, PCI DSS)
- Food (ISO 22000, HACCP, GLOBALG.A.P., IFS, BRC, GMP+)
- Logistics and Transport (C-TPAT, TAPA, ISO 28000)
- Second Party Auditing

Certification of Products

**Certification: proof of quality for your products**

With TÜV Rheinland as your partner for product audits and certifications, you can strengthen your company's success on the market with a neutrally audited and certified product.

We evaluate, test and certify safety and quality of products: electrical household equipment, electronics, medical products, mechanical products, IT equipment, luminaires, power tools, vehicles and components.

Always a good sign. TÜV Rheinland test mark.

This mark stands for all the relevant customer information about products, services and systems that are tested, certified or inspected by TÜV Rheinland. This information is available online anytime, anywhere and can be viewed in a matter of seconds at the click of a button. This means optimal transparency and top performance in terms of safety, quality and reliability – always. Global, systematic and eye-catching – communicated through a unique and multifunctional mark. The TÜV Rheinland test mark.
